

most

eat

an open menu is the first step into a library of flavors.
on the spine, in bold letters, you'll find hints about where the tenderly
printed title might take you. slowly baked, with fire and intention,
the story of taste captures the intensity of nature.

if it's a MUST, there's no need to start from the first page.
the plot is far more delicious when you take a leap without being
prepared, just present.

the city's pulse quickens when familiar spices meet unexpected
pairings; you might even find yourself underlining the sharp lines,
eager to read them aloud to others.

but when you take a bite with your heart, others can read on your lips
the sweetness of the final chapter, one that could be described in
many ways: crunchy, playfully fizzy, or comforting.
yet the truth is, you can't capture **a universe in a few words**.
only with your senses awakened can you capture the words within
the universe born of water, light, and flour.

to begin with

new **tomato soup** ^{260ml} **42**
· creamy tomato soup · crispy feta croquettes · herb oil · toasted sourdough bread ·
allergens: gluten

creamy chicken liver pâté ^{200g} **47**
